RUST PROOF IRON,

FOR ROOFING, WINDOW SHUTTERS, &c

THE subscribers beg to call the attention of all those interested in roofing, to their GALVANIZED TIN PLATES and to the many advantages which they possess over all metallic and other substances heretofore used for this purpose, possessing as they do, the strength and lightness of iron without its liability to rust having now been tested several years, both in this country and in Europe. They are also less subject to expansion and contraction from sudden changes of the atmosphere, than common Tin Plate Iron, Zinc &c. for any other metal now used for roofing and consequently form a much better and lighter roof, requiring far less frequent repair, while the first cost is but a trifle more.

The subscribers would also call the attention of all dealers and workers in metals of the many other purposes to which Iron thus protected can be applied. In general terms it is applicable to all articles of iron where it is desirable to protect from the action of the atmosphere. And they would especially call the attention of those interested in TELEGRAPHIC LINES, to their Galvanized Wire which is now almost entirely used in Europe and which answers every purpose as a conductor of electricity, costing only about one half as much as copper, and possessing equal durability with that metal.

Having lately erected works in this city for the purpose of galvanizing Nails Spikes Bolts Wire &c, they will be able to furnish any article which may be desired. A supply of Plate Iron (Antrobus' Europe) constantly on hand from 16 to 32 wire gauge.

DR. UPHAM'S
Vegetable Eternal Remedy
FOR THE PILES!

☞ **A Cure for Life Secured.** ☜

For the prevention of Piles Inflammation of the Liver and spleen Inflammation, Stricture and ulceration of the Stomach Bowels and all diseases Inflammatory and Hemorrhoidal Nature. It purifies the Blood Weakness and Relaxation of the System and is a friend of Married Ladies

THE VEGETABLE ETERNAL REMEDY invented by Dr A. Upham is distinguished Physician of New York city, is the only really successful remedy for the long known and dreaded complaint, the Piles, ever offered to the American public.

Mr. Upham has in this VEGETABLE REMEDY not an experimental humbug to sell but a well cure any case of Piles however long standing or hard to cure and in fact in the generality of cases a perfect cure is effected.

Each box contains twenty pills and $1 the box per dose. It is very mild in its operation, and may be taken in the most delicate constitution without fear or hindrance from business. It is also a convenient medicine for travelling as the genuine Upham's Health is a portable manner.

Such has been the success of this medicine in New York city, that the proprietor has been induced to put it up in this manner, and will cure any case of Piles however long standing or hard to cure.

All eternal applications in the highest degree disagreeable inconvenient and of course, and for the permanent cure of the disease they carry in them the seeds of its return. But the use of internal remedies in the form of pills is attended with no inconvenience, rendering the cure CERTAIN and PERMANENT.

INFLAMMATORY DISEASES

Although the ETERNAL was originally prepared for the cure of Piles, it will be found in the experience of numbers, to all diseases of an inflammatory character, from a common cold to a violent fever. Also in cases of Spleen, Dyspepsia, Sore eyes, Ulcers from old sores, Rheumatism, Pains in the Bowels, Female Complaints, Dropsy, and in fact, in complaints of an inflammatory nature, it is the BEST MEDICINE ever discovered.

TO THE AFFLICTED.

Any person afflicted with the Piles, may rest assured that a perfect cure will be effected by the use of this medicine, and that without pain or inconvenience. Those who have been afflicted for years, and have tried every thing else without effect, may rest assured that this medicine will cure them.

TO MARRIED LADIES.

Married Ladies are particularly subject to that painful and distressing complaint, the PILES—and to such this medicine is invaluable. Those who have suffered the most horrible agonies from this complaint, will find relief by the use of this medicine. It will not only relieve but cure without pain or inconvenience. Those who have been afflicted for years, and have tried every thing else without effect, may rest assured that this medicine will cure them.

CURE FOR LIFE GUARANTIED

The Eternal is not a MINERAL Medicine nor a secret Quack nostrum or other compound that may injure the constitution by making calomel or mercury the ruling principle in the medicine, but is entirely VEGETABLE, containing no poisonous or injurious substance whatever, and may be taken by the most delicate female with perfect safety. A CURE FOR LIFE GUARANTIED.

Pamphlets giving full information respecting this Medicine may be had of Agents for the sale.

GREAT SUCCESS OF UPHAM'S
PILL ELECTUARY!

Portland, Me., March 11 1847

Dr. UPHAM—My dear Sir—I cannot express to you my sense of the benefit that I have received from your Pill Electuary. I have been a great sufferer for the last 10 years, so much so that I have come to the conclusion to put up with the loss of appetite, general debility, and many other disagreeable feelings which are the consequence of the digestive organs. My eyes also became ... and I was in fact a burden to myself. I was obliged to give up my business, and was advised by my friends to try a change of climate. I was induced to try a box of your medicine. The first I took relieved me slightly, but I persevered, and have used a second and third box, when I got half through, I found myself getting well, and I kept on, and now I am well and my health is restored to me. I cannot express the heartfelt thanks that I am under in ever attempted to help those who are in need of your medicine, for I am sure it is a blessing to all who are afflicted with the Piles.

You can use this letter as you please.

Yours respectfully, SAMUEL CHARLTON.

To JOHN HALE, of FOXCROFT

And the Public in general particularly to Druggists Merchants Storekeepers and Farmers

Dear John Hale:

It seems to be due to you and to my self to lay before the public your confession to me on the 2d of June 1847, in the town of Brewer in the presence of my partner and Geo O Goodwin, merchants, and other twitnesses present, in which confession you did say that you sold in the year 1844 to Silas Bunker of Corinth, Me., a receipt or knowledge of the mode of manufacturing Dr White's Plaster, and that on said receipt you received a like receipt to Ide Hatt at Swanville Bridge and to Robert Spencer, Esq. Post at Benton Falls, and to Mr ... Tobiman a merchant at Jonesborough, and to ... Spencer made said conveyances of the knowledge of making said Plaster and after you knew that Ide, said receipt had got to Unity and sell you have traveled much in Maine and have stated to those persons who were supplied with said Dr White's Plaster, not to deal by yourself that it was a complete article, and that you were the only person who had a right or right to manufacture Doctor White's Plaster.

Your confession, which I have in writing with your own signature, and witnessed together with what you have repeatedly stated about the counterfeit, and which can be proved by the testimony of the following named persons involve you in the mazes of fraud and deception such as few men would be willing to resort to. These are the witnesses referred to

and 1000 others—and evidence can be had in this city to corroborate the above statement.

I do hereby ... and ... that I shall continue to manufacture the genuine WHITE'S PLASTER at the street and number with the Original Receipt, which shall not be second to any made in the State. The efficacy of my Plaster is fully established in this city.

A Strong Power.

The editor of the Hallowell Standard a liberal party paper has proved himself quite a dictator, to be sure, in his last paper—At a regular convention of his party in Lincoln county, candidates were selected for the various offices, but one of the candidates for Senators had significantly determined not to vote for Mr Morse as the Whig candidate in that district for Congress—he thought confidence in Mr Morse and entire unanimity of action necessary to the success of the party—he thought some good might come in Maine, by a full application of the wholesome and healthful principles of the opponents of the locofocos in New Hampshire For this the editor of the Standard denounces him, reads him out of the party and refuses to insert his name in the list of nominations

Since the greatest stretch of editorial power we have ever known exercised and all the Liberty party in Maine can stand such treatment they had better give up their conventions and primary meetings, and yield themselves up to the bidding of their editors, for it is useless and unprofitable for an editor to do the work for a convention and save them the expense and trouble than to undo what they have been at the time and trouble of doing

The editor of the Standard has been so rapidly and unpardonably appointed in certain matters with his principles, that he has at length proved too much for the patience of his party, and will probably soon reach the point when he will be too unpopular to be even for himself

Aroostook County Teachers' Institute

Teachers Institute for the County of Aroostook will be held at the Court room in Houlton to commence on Wednesday the 6th day of October next, to continue four two weeks

Such of teachers Superintending School Committee the friends of popular education, and every citizen, who is in favor of improving our system of public instruction, so as to give system, life, and efficiency, are invited to the subject matter of this circular, a careful examination

The effective operation of our school system for many years, has been felt by all who were in any way connected with its details These defects have been examined and pointed out by a few individuals, till they have arrested public attention

After mature reflection, and a careful examination of all the facts in the premises, our State authorities, as the wise guardians of the public weal, nobly acted on the subject

In establishing a Board of Education, the Legislature made it one of the duties of the Board to collect and disseminate information calculated to throw light on the subject of education, or to raise the profession of teaching in public estimation also to procure and exhibit models of improvement and, in general, to pursue that course, which in their judgment, would be most likely to awaken on the part of parents an increased interest in favor of improving the condition of schools, and to encourage teachers to qualify themselves to perform with greater thoroughness, ability, and fidelity, the responsible duties of their profession

Acting under the Board of Education in their first annual report recommended, among other means of improving our schools, a Teachers Institute to be held in every county of the State This recommendation of the Legislature seconded and adopted by the Board to carry it into effect By virtue of the authority this circular is issued

The Institute will be organized and conducted by such gentlemen as the teachers becoming the assembled may choose Instruction will embrace the art of teaching, and it is expected that lectures will be delivered by several gentlemen from without and citizens of the County during the session

All persons in the county who are engaged as school teachers, or who expect to be so engaged during any part of the coming year are earnestly invited to attend and avail themselves of the benefits of the Institute

One prominent object to be accomplished by the Institute, is to exhibit the best modes of imparting instruction, and to make these modes familiar to every teacher present To accomplish this end the several branches taught in our common schools will be taken up and reviewed, the board of instruction presenting the manner, in which they would teach these branches to children

Another object to be attained, is to present the best mode of arranging, classifying, governing and discipling a school These and all collateral matters, will be taken up as subjects of general discussion, and an opportunity offered to all present, for a free interchange of views

That the Institute will be of great service to our public schools no one can doubt, since the influence it is calculated to exert by our ablest and most successful teachers, will become the property of all It will afford to teachers who attend, an opportunity to renew their stock for the winter schools, under the superintendence of able and competent instructors—be open in a respect worth to them nearly or quite as much as a term of three months at an academy Moreover teachers who attend this exercise to become skillful in their profession will be sought after, and their services will command higher compensation

The expenses of pupils attending the Institute will be small Tuition, room rent, and other incidental expenses will be free The only expense will be the board and measures will be taken to have this afforded on the most favorable terms

All those intending to the town to attend the Institute are requested to present themselves at the Court room, where persons will be in attendance to assist them in securing board and places

☞ The Bath Tribune states that the Directors of the Kennebec, and Portland Road have decided to let out and receive proposals for the portion of the road between Brunswick and Augusta

☞ Charles Dana is talking of taking another trip to the U States

☞ The large sized chubby face of Isaac Hill and the vanishing corporations are advertised for sale by the Secretary of the Treasury—Among others the land of Mr Swartwout is offered for sale and makes quite a respectable item

☞ The Rev gentleman who officiates Rev Mr Hodge pulpit on Sunday last, delivered a very talented discourse, in the forenoon, accepted expressly for children, and as such it was an able performance, but it was rather unfortunate that there were so few children in attendance

☞ Within the limits of Bangor, and even public houses are, but almost every Sunday may be heard the clatter of running and horses in a manner painful Do let these things be

Launched

On Saturday, four Crosby's yard at the city launched the Tivoli of 200 tons She is owned by Messrs Jones and Titcomb Crosby, of this city, and Crosby & Dodge of Hampden—Mercury

☞ Crowds visited the docks of Hampden to see the five extensive and elegant arrangements of a public Fair, to be held at the Academy building in that town on Wednesday event next All Bangor people are specially invited

Senior Packenham, the Mexican Minister of Foreign Affairs says in his Circular to the Governors of the States,

"That the Government of her Britannic Majesty, while it cordially reciprocates with the people, has not, and does not intend to take any preliminary power which may interfere with the free and independent exercise of the sovereignty established *wherever its residence may be*, and that the object of war cannot be the conquest of the capital"

The letter Lord Palmerston to Senor Moreno this country by the Mexican Government from Mexican capital, and directed establishment elsewhere The point becomes of much importance, if what we hear is true, that our Government, after full deliberation in Cabinet Council, have determined to establish a form of government *de facto* as a basis to make with it a treaty of peace, and guarantee the security of that Government Rumor says that instructions to this effect have been sent to Gen Scott through various channels—That, after Gen Scott takes the city, he may send hence two Governments in Mexico first, his Government, and secondly, the Government *de jure* and *de facto*, to which Lord Palmerston professes to adhere

Hurry we that this new order of things, to avoid difficulties or contentions with the British Government In deed, it is asserted that one of the rival interests existing between us in the Gulf of Mexico, and in the Pacific, no serious disputes, have already sprung up The forces ance and the prudence of the respective military representatives of the two Governments in those seas, no doubt, deserve high praise for saving us from the almost inevitable embarrassments that would have resulted in a collision of forces or of interests But it can scarcely be expected that a like forbearance and prudence will prevail forever Whatever may be the new order of things, however that may be, it is all important, if we are to have an [illegible] with Great Britain, that our Government be right In the first place, then, it behooves us to consider if we have a right by blockade by arms to [illegible] a *de facto* Government in the city of Mexico, and to demand [illegible] of it by foreign ministers and [illegible] Certainly when the old and the [illegible] is removed to some other State

The object is a belligerent, such as the United States wish to create a civil war in Mexico, we presume will not be denied It is the policy of a nation to weaken an adverse one by every available means within its power and one of the most effective means for that purpose is to foster strife between contending parties and to [illegible] the arms which otherwise would be directed against him self, upon his own men The nation is more than half subdued which can be so distracted that two governments can be successfully created over the same people

The citizen or subject, not knowing which to obey, refuses to obey, either, or obeying, divides, and so one is rallied and excited against the other The right of General Scott thus to distract the Mexicans is undoubtable, but it does not follow, from this right that the further right exists of compelling or expecting foreign nations to recognize his government and to disown what they deem the *real* government of the State The *de facto* and *de jure* government of Mexico is the government now existing, and wherever that government removes, it is the *prima facie* government *de jure* Its removal from the city of Mexico neither disqualifies it, nor disrobes it of its power It is as much a government in Zacatecas as in Mexico Its authority as legal and as binding in one part of Mexico as in another, provided that part is not under the jurisdiction of our arms

Whatever we have conquered the soil, it is the duty of the Mexicans to remain neutral, and to obey the proper ordinance of our commanders Nay he may be, and should be, indebted on such obedience to any Mexican government as would violate its fealty to—but no matter where he is fealty and loyalty due to his country is due to the government in fact, even if that not the government in right But there be cavilers of the fact in the *de facto* government existing in Mexico, one in [illegible] governing only what is under the subjection of our arms, and another in all the other States of Mexico, beyond a doubt the British Minister has a right to reflect which he considers the government in fact It may be an unkind cut in him toward us to prefer our enemy's government to the government of our friends but of the right to choose there cannot be a doubt, unfortunately when he could forget, and so one is rallied and excited against the other

This person's Compound Syrup of Tar and Wood Naptha—It needs common sense only to see that there ought to have been a cure for consumption before the names of its ingredients. This fact has been rendered by concealing a respectable ingredient by substituting a certain which has been properly tried and met with the universal approval of the public The fact however is seldom known to the people who unhesitatingly assert that a certain ingredient will cure every disease that flesh is heir to from the toothache to the gout The wonderful fabrications are read by a majority of the people who swallow the bait, the result of which is the public are further hundreds than half if not quite persuaded that the genuine article is made *quod erat demonstrandum* How much better it would be if people would inquire into the merits of any compound medicine before purchasing, the swindler would have all doubt and secure the purchaser from imposition. Were all the above remarks strictly adhered to our people would find Simpson's Compound Syrup of Tar and Wood Naptha a preparation of *Canella Alba* or the rebuke of contemptible imposition, affections and diseases of the throat and lungs The medicine we have used with the most triumphant results and many cases of pronounced consumption have come under our notice where speedily and entirely relief from the use of *Simpson's Compound Syrup of Tar and Wood Naptha* Prepared only by Agnes & Buck on the N E corner of Fifth and Prune streets

BOSTON.

L. & W. T. ADAMS beg leave to inform
their friends and the public that they have
taken the above new and splendid House
THE ADAMS HOUSE was erected during the
past season to supply an obvious demand for
a first class accommodation in this City
It is located on Washington street within five min
utes walk of the great southern and western Rail
Road Depots and the business centres of the City
It is adjacent to the Park and the Capitol com
mands a beautiful view of the Harbor and the ad
joining towns
The House has been constructed after the most
approved plans, with all the modern inventions that
minister to the comfort and convenience of the
Travelers, and the Proprietors' long experience in
Hotels has enabled them to introduce many improve

CONSUMPTION CURED!

TRIUMPHANT SUCCESS OF

Buchan's Hungarian Balsam of Life,

THE GREAT ENGLISH REMEDY

FOR

COLDS, COUGHS, ASTHMA and CONSUMPTION!

The most certain tried and INFALLIBLE remedy for Cold, Coughs, Asthma, or any form of PULMONARY CONSUMPTION, is the HUNGARIAN BALSAM of LIFE, discovered by Dr. Buchan, of London, England, and used for upwards of seven years in Great Britain and all the Continent of Europe, and introduced into the United States under the immediate superintendence of the Discoverer.

The astonishing success of the Hungarian Balsam, in the cure of every form of CONSUMPTION, warrants the American Agent in soliciting for treatment the WORST POSSIBLE CASES that can be found in the community, even those that seek relief in vain from every other pulmonic remedy of the day, and have been given up by the most distinguished Physicians as confirmed and INCURABLE. The Hungarian Balsam has cured, and will cure the MOST DESPERATE CASES. It may check a cough, but cannot cure consumption, unless the constitution is thoroughly established. After

TWO MONTHS TRIAL

the most inveterate Consumptive will find the Hungarian Balsam has cured them, or greatly relieved them, and in the end, after a few months use, will find that the Balsam has performed a perfect cure. Thousands of cases, considered utterly hopeless by the most eminent Physicians, have been cured by using this Balsam. In fact so numerous and so emphatic have been the testimonials in its favor, that the Inventor is afraid to publish them, lest they should be considered as the exaggerations of interested persons. Suffice it to say, that the Balsam has received the most unqualified approbation of the Medical Faculty, and has been introduced into the Hospitals of London, Paris, Edinburgh, Dublin, Vienna, Berlin, and other cities of Europe, and is now used in the Hospitals of Boston, New York, Philadelphia, and other cities of the United States.

Persons who have been deaf for 10, 15 and even 20 years, have been permanently cured by using this Balsam. In fact so numerous and so emphatic have been the testimonials in its favor, that the Inventor is afraid to publish them, lest they should be considered as the exaggerations of interested persons. Sherry-Wine Bitters.

THE Proprietor of this medicine offers to the public the result of much expensive practice and a thorough investigation of the laws which govern the human system.

It cannot be denied by those who have become acquainted with the singular virtues of these Bitters, that they possess a power unknown or all other medicines in use, for the diseases which they profess to cure.

It is a well known fact that most diseases arise from a derangement of the Stomach and Bowels, or unfaithful acidity and decline in the blood.

The extensive sensations which subsist between these and every other part of the living body is the foundation of the many Diseases of all kinds—Irregular Appetite Languor Drowsiness Wandering Pains Headache Dimness of Spirits &c.

And these irregularities give birth to Dyspepsia Palpitation of the Heart Shortness of Breath, Jaundice Piles Fever Inflammatory Humors Coughs and a host of diseases which humbitte life and poison all the springs of enjoyment.

The distinguished character of these Bitters is most striking their operation being more gentle and powerful according to the violence of the disease. When used in appropriate quantity in cases of slight derangement of the Stomach and Bowels, caused by costiveness or a slight bilious difficulty and likewise where nature needs assistance to prevent more serious consequences, they will be searcely felt.

On the contrary, in obstinate cases they frequently operate more powerfully causing two or three evacuations daily, until the circulating fluid becomes purified. This accomplished, they act on the system in connunction with our food, capacity giving more pleasure until the constitution is restored to a state of health and perfect vigor.

THE GRAEFENBERG PILLS.

THERE ARE THE most conclusive reasons why that class of Medicines denominated "PATENT," should be made the means of the most valuable and enduring blessings to the human family. Suppose, for example, that a high order of talent long and sagacious observation and great medical learning and experience are brought to bear upon the invention and manufacture of a PILL. Why is no this long devotion to this division of medical science be crowned with the success it so richly merits, the sacrifice of similar talents and qualities among other things? There is no reason, and it is but the simplest dictate of the simplest common sense to say, that a Pill thus produced will be as perfect an article as can be made by man. *Twenty five years devotion* to any one subject will give a man of ability the mastery over it. This labor has been bestowed upon the

Graefenberg Vegetable Pills

and they are presented to the public with claims appealed to in the whole history of medical science.

It will be seen, in tracing the history of all great inventions, that they were not made or discovered until the arrival of what may be termed THE FULNESS OF TIME. The meaning of, or reason for, is unknown, was not imparted until in the "fullness of time" it was needed. The *locust bone* always lies at man's feet, but he never knew what a wonderful and unerring guide was transformed in an instant into the Divinely appointed *Mariner*, and its effect in the restoration and growth of the hair is unequalled by any other preparations of any kind.
